Acquisition Information

Statement of Purpose: The role of Baldwin County Department of Archives and History is to preserve the inheritance of the people of Baldwin County for present and future generations by preserving, acquiring, and making accessible the documented heritage of the County. To do this, we will acquire archival material which reflect Baldwin County’s political, social and economic history and development; we provide a suitable secure and safe accommodation and preservation facility for acquisitions, thus encouraging use of the acquisitions by researchers of various interest and backgrounds, including genealogists, local historians, sociologist, journalists, political scientists, students and the public.
**General Acquisition Rule** – The County Archives accepts the general principle that it is its responsibility to ensure to the best of its ability that all the collections in our care are adequately housed, conserved and documented. Primary consideration is given to the Archives ability to provide proper care and storage for any deposited archival material. No archival material will be considered for acquisition if its physical condition exceeds the County Archives financial ability to provide for its care and preservation.

We will not acquire, whether by purchase, gift, bequest or exchange, any item, unless the Archivist is satisfied that valid title to the item in question can be acquired. No item will be collected which has been acquired in, or exported from, its country of origin, or any intermediate country in which it may have been legally owned, in violation of that country’s law.

Where an item is offered as a gift in good faith and the prospective donor is uncertain of the identity of the legal owner/s and the County Archivist is unable to find this out because of its own reasonable efforts, the Archivist shall be permitted to accept the item, provided a permanent and detailed note of the circumstances and known facts is made at the time of acceptance.

We will abide by all laws regarding archives and recognizes the jurisdiction of other authorities in this area.

The County Archives shall always, be aware of and sensitive to the concerns of all communities and traditions within the county when considering the acquisition of archival material.

The acceptance of items on loan, normally for a finite period for exhibition or specific research, may be authorized by the Archivist. In exceptional cases, a privately-owned item of major importance that falls within the scope of this policy may be accepted on a finite long loan. No item will be received on ‘permanent loan,’ a term which has no legal status. The period of all loans will normally be agreed in writing between the Archivist and the owner of the item at the time of deposit. Where the term of a loan has expired, it may be renewed or extended for further finite periods, at the discretion of both the owner and the Archivist.

The Archivist undertakes to do everything possible to ensure the deposited items are preserved to the highest standards.

The Archivist reserves the right to refuse to accept as part of the collection material it deems to be extraneous or of no historical value.

The Archivist hereby confirms its acceptance of the principle that archives are held in trust for future generations. The deaccessioning of any items from any collection will not take place unless the depositor is in full agreement and the Archivist agrees that the item in question is no longer considered an item worthy of permanent preservation in the County Archives.
