[REMEMBER TO
GIFT SMART](#)

[GIFT SMART](#)

- 01 **DRESS WARM**
Wear multiple layers. Cold exposure can occur. Wear layers, including a wind-resistant jacket, to stay comfortable during unexpected cold days.
- 02 **PREPARE HOME**
Insulate exposed pipes and ensure your heating system is working. Keep indoor temperatures at or above 68 degrees Fahrenheit.
- 03 **DRIVE CAUTIOUSLY**
Roads can be slick with ice, especially on bridges. Drive slowly and leave an emergency kit in your car.
- 04 **PROTECTION**
Be aware of frostbite and hypothermia risks. Wind chill makes the cold feel even more dangerous. Use hats, gloves, and warm clothing.
- 05 **STAY AWARE**
Check weather reports frequently and monitor for updates on cold fronts or late winter storms, and be prepared for quick adjustments.
