

# MEDICATION

## AN OVERVIEW OF PRESCRIPTIONS AVAILABLE ONSITE

Taking your medication as prescribed leads to better long-term health. With Symbol, these medications don't have to come at a high cost. Your CareClinic may have generic forms of your medicines available **onsite & at ZERO cost** to established Symbol patients.

Make an appointment with your Symbol medical professional for a thorough, private and HIPAA-compliant review of your current medication list.

Not every prescription medication is available in generic form. Symbol works with our patients to make sure you get the best treatment at the lowest possible cost.

Physically bring your medications to your appointment so Symbol can best serve your individual medical needs.

Symbol will help coordinate any prescriptions that need to be written or filled outside of the Symbol system.

### CALL FOR AN APPOINTMENT

**Bay Minette: 251.580.2555**

**Foley: 251.943.6166**

**Gulf Shores: 968.9820**

**Robertsdale: 251.970.4075**

Symbol Health Solutions is not a pharmacy.

Your CareClinic medical professionals will only prescribe medication therapies to established patients after an in-person consultation.

Only pre-packaged, non-controlled prescription medications, generics, and over-the-counter drugs will be dispensed at a Symbol CareClinic as permitted by state law.

If you're on specific treatments not listed in this medication list, please call your local Symbol CareClinic to see if we can order a generic version for you.
