**Agency Comments**

**ADEM, Scott Brown:** No comments received.

**City of Loxley, Greg Smith:** No comments received

**City of Loxley, Mayor Teal:** No comments received.

**Subdivisions, Fabia Waters:** following rezoning approval, the applicant is required to apply for a concurrent review application for the proposed two-lot subdivision

**Staff Analysis and Findings**

The criteria for reviewing zoning amendments are outlined in Section 19.6 of the Baldwin County Zoning Ordinance. Staff carefully considered all of these factors during the evaluation of the application.

**(a) Degree of compatibility of the proposed rezoning with existing and allowable land uses in the vicinity.**

The subject property encompasses approximately 14.05 acres and is currently zoned as RA, Rural Agricultural District. A request has been made to change the designation to RSF-E, Residential Single Family Estate District to divide the property in half for residential use.

**(b) Degree of conformity of the proposed rezoning to the Master Plan.**

The Future Land Use Map (FLUM) represents a combination of development and environmental suitability factors, which direct growth and development patterns for the unincorporated areas of the County. The FLUM identifies the

subject property as Moderate Development Potential . These place types allow for zoning such as RSF-1 and RSF-2. The parcel also includes a small amount of Ideal Conservation/Preservation.

**(c) Proximity of the proposed rezoning to existing transportation network and utility infrastructure.**

The subject property is located on a Local Road. This type of street or roadway primarily designed to provide direct access to adjacent properties. Rather than moving traffic long distances, these roads prioritize property access and connect neighborhoods to the broader transportation network

**(d) Timing of the request and development trends in the area.**

Most of the surrounding area consists of agricultural land and estate-sized lots. The closest area experiencing development is approximately half a mile to the southwest, near the interchange of I-10.

**(e) Impacts on environmental conditions of the vicinity or the historic resources of the County.**

No impacts on environmental conditions nor any historic resources of the County are proposed.

**(f) Impacts to the health, safety and welfare of the County and the vicinity.**

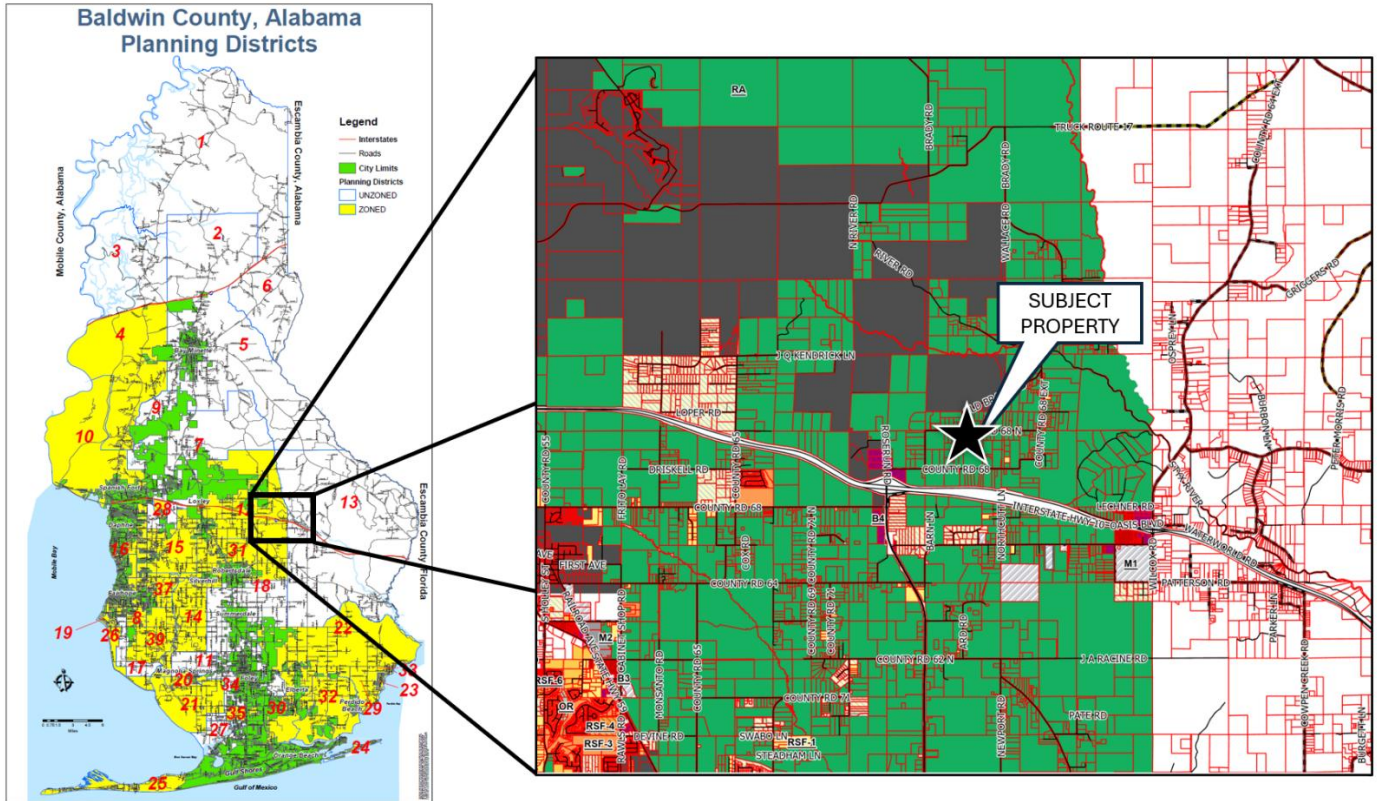

The proposed request should have no impact to the health, safety and welfare of the property or surrounding properties.

### Staff Comments and Recommendation

Upon review of the *Factors for Reviewing Proposed Zoning Map Amendments* specified within Section 19.6 of the Baldwin County Zoning Ordinance and themes of the Baldwin County Master Plan, staff has determined that the requested Zoning Map Amendment is **somewhat consistent** with the factors specified within the Baldwin County Zoning Ordinance and is **consistent** with the Baldwin County Master Plan Future Land Use Map.

The requested Zoning Map Amendment was also evaluated using the Smart Growth Scorecard (attached) which **somewhat supports** the request.

# MODERATE DEVELOPMENT POTENTIAL AREAS

Moderate Development Potential Areas are suitable for all of the land uses described in the previous place types but may also include a variety of home types from large and medium-lot single-family detached homes to single-family attached homes such as duplexes and townhomes. Subdivision patterns may be amenity-based communities with small gardens, parks and playgrounds within private lots or part of a community space. Neighborhood centers or nodes at key intersections would allow for a combination of retail, office, and service uses to meet the needs of the community.

### PRIMARY LAND USES

- Single-family neighborhoods (suburban)
- Amenity-based communities
- Neighborhood center/node

### RELATED ZONING DISTRICTS

- RSF-1 Single Family District
- RSF-2 Single Family District

### CONNECTIVITY NETWORK

- Suburban street networks/limited use cul-de-sacs
- Open space, parks and amenities provided within neighborhoods
- Streets with sidewalks, bike lanes, and/or side paths based on local character and context
- Suburban greenways and trails
